Registered Charity No 1138335

Thank you for your interest in volunteering for our group.

Feral Cat Welfare aims to support ferals in their own habitats by providing shelter and food, and wherever possible to foster, socialize and re-home the kittens or relocate adult cats if they are at risk. We also help feral cats by reducing their numbers through education of the public, encouraging them to neuter their own cats and by trapping, neutering and returning feral cats. The long term aim of Feral Cat Welfare is to provide a permanent refuge for feral cats where they can live safely for the rest of their lives.

Please complete and return to us by either post or email, and we will be in touch to discuss this further with you.
